The displacement of the new 911 models has been considerably reduced with the aim of cutting fuel consumption. That's because we more than most as a sports car manufacturer bear huge responsibility. One of the most popular upgrades for the 911 is the addition or upgrade of the external oil cooler. Without a doubt, it is very important on an air-cooled engine to keep temperatures within an optimum operating range. Engines. At Porsche, there are no conventions. Forbidding free thought? That's forbidden. The only thing that matters is this question: how can we become even better? Let's put it another way: can we redefine the limits of engineering?
