With the advent of globalization and dynamic growth of international trade, shipping goods around the world has become a far more challenging and complicated activity. DUBLIN, April 25, 2019 /PRNewswire/ -- The "Fleet Management Market by Solution, Service, Deployment Type, Fleet Type, and Region - Global Forecast to 2023" report has been added to ...If anyone other than you can “pull the plug” or change the rules for your identity, it isn’t self-sovereign, it is siloed – even if it uses ‘blockchain’ technology. After the advent of the internet and smart phones, AI is going to bring the third big wave of fundamental change in the way business is done. There is a huge opportunity for companies to become leaner and improve their bottom lines through AI led automation., Advent Global Solution Inc.
