

# Download Animals Of The Church In Wood, Stone And Bronze

Metalwork: Metalwork, useful and decorative objects fashioned of various metals, including copper, iron, silver, bronze, lead, gold, and brass. The earliest man-made objects were of stone, wood, bone, and earth. It was only later that humans learned to extract metals from the earth and to hammer them into Convenient and practical, it's nice to sit on during the summer. Data taken from game assets, game version 1.0. Listed values are without The Giver skill, which gives an extra 1-2 points. Copper came into use in the Aegean area near the end of the predynastic age of Egypt about 3500 BC. The earliest known implement is a flat celt, which was found on a neolithic house-floor in the central court of the palace of Knossos in Crete, and is regarded as an Egyptian product. Bronze was not generally used until a thousand years or more later. please note that any enquiries for photographs of lots in our antique sales only should be directed to [info@gordondayauctions.com](mailto:info@gordondayauctions.com) prior to 6pm on the thursday before the auction. on the friday enquiries will be dealt with by the office on 01959 533263 between 9am and 4pm.
