way to ensure that your salt and water sources are free of nitrates ( $\text{NO}_3^-$ ) and ammonia ( $\text{NH}_3$ ). Any of the major brand will work, such as Elos, Salifert, Red Sea and API; I recommend either. Intending to start my first saltwater aquarium I first bought this and several other books on the subject. I got some good information out of them all, but the best one to get me started correctly was AQUARIUM KEEPING & RESCUE.
