

# Download Cerebral Protection In Cerebrovascular And Aortic Surgery

Total arch replacement with separated graft technique and selective antegrade cerebral perfusion  
Aortic arch atresia is a rare entity among adults and may coexist with other cardiovascular surgical diseases. Single-stage extra-anatomic ascending-to-descending aortic bypass graft surgery is a safe and less invasive technique for correction of this complex congenital disease with other concomitant surgical cardiovascular disorders.x To evaluate the middle- and long- clinical outcomes of aortic implantation of stent-grafts under direct vision (hybrid surgical treatment).Journal of Vascular Surgery® is dedicated to the science and art of vascular surgery and aims to be the premier international journal of medical, endovascular and surgical care of vascular diseases. Since the first issue was released in 1984, the goal of the journal has been to improve the management of patients with vascular diseases by publishing relevant papers that report important ...
