

Download Creating Web Video With Adobe(r) Premiere

Adobe Premiere Pro lets you easily create videos that can be exported to the Web or to mobile devices. To export your project, click on the sequence and select File > Export > Media.. In the Export Settings dialog box, you can choose the most optimal file format, frame size, bit rate or ready-made presets for faster upload time and better playback quality. Automation makes video editing easy. Your creativity makes it amazing. Have fun organizing, editing, creating, and sharing your videos with Adobe Premiere Elements. All the same Lynda.com content you know and love. Plus, personalized course recommendations tailored just for you Get LinkedIn Premium features to contact recruiters or stand out for jobs Premiere Pro allows you to specify the settings for each sequence, trim clips, and assemble clips in sequences. Every Premiere Pro project can contain one or more sequences, and each sequence in a project can have different settings.
