An unexpected number of bomb craters, bunkers, trenches and field fortifications from World War II remain hidden in the forests of Western Europe, a new survey reveals. The Aftermath of World War II was the beginning of a new era, defined by the decline of all European colonial empires and simultaneous rise of two superpowers: the Soviet Union (USSR) and the United States (US). Allies during World War II, the US and the USSR became competitors on the world stage and engaged in the Cold War, so called because it never resulted in overt, declared hot war ... The Cold War had many effects on society, both today and in the past. Primarily, communism was defeated. In Russia, military spending was cut dramatically and quickly. The effects of this were very large, seeing as the military-industrial sector had previously employed one of every five Soviet adults and its dismantling left hundreds of millions throughout the former Soviet Union unemployed.
