

# Download Everyday Engineering Integrating Science Activities

Your help could further MMSA's vision of a brighter STEM future for the State of Maine and the nation. Today, I ask you to support MMSA and become a part of the movement to support exciting new ways for our youth to learn about science, technology, engineering, and math. About International Conference on Material Science and Engineering. Materials make modern life conceivable from those metal ball-point pen you're using, the polymers in the chair you're sitting on, and the concrete that made the framework you live or work into the materials that make up highways and streets and the car you drive. Click on the topics or units to find quick, easy, fun activities to do with children in your care setting. The activities and media-based curriculum (for older children) provide exciting, focused, everyday learning experiences. Nudge, persuasion, and the influencing of human behaviour through design are increasingly important topics in design research and in the wider public consciousness., Everyday Engineering Integrating Science Activities.
