

Download Guidelines For Planning Irrigation And Drainage Investment Projects (fao Investment Centre Technical Paper)

The International Commission on Irrigation and Drainage is dedicated to enhancing the worldwide supply of food and fibre for all people by improving water and land management and the productivity of irrigated and drained lands through appropriate management of water, environment and application of irrigation, drainage and flood management techniques. Irrigation has been a central feature of agriculture for over 5,000 years and is the product of many cultures. Historically, it was the basis for economies and societies across the globe, from Asia to the Southwestern United States. Averting risks to the food chain: A compendium of proven emergency prevention methods and tools. This publication, based on 23 FCC-EMPRES information sheets published on a monthly basis by the FCC Intelligence and Coordination Unit of the FAO Agriculture and Consumer Protection Department, showcases some of the best practices currently in use. Background of the study. by Petra Jacobi, Axel W. Drescher and Jörg Amend One of the biggest challenges of the next decade facing mankind is the growing population and increasing urbanisation.
