Lighting for Cinematography: A Practical Guide to the Art and Craft of Lighting for the Moving Image (The CineTech Guides to the Film Crafts) (English Edition) 1. Lighting for Cinematography is constructed to appeal and be of value to the practitioner at all levels; it is equally full of detail for careful consideration and quick hints and images for review before filming. Landau's book is helpfully crammed with instructional diagrams and the chosen images act as exemplars of technique. Structured to mimic a 14 week semester, the chapters cover such things as lighting for movement, working with windows, night lighting, lighting the three planes of action and non-fiction lighting. Every chapter includes stills, lighting diagrams and key advice from professionals in the field, as well as lighting exercises to help the reader put into practice what was covered., Lighting For Cinematography A Practical Guide To The Art And.
