

Download New York Subways : An Illustrated History Of New York City's Transit Cars

OTHER RAIL TRANSIT IN THE NEW YORK METROPOLITAN AREA.. PATH: PATH (Port Authority Trans-Hudson) links central Manhattan to Jersey City and Newark in New Jersey: PATH operates like a metro (every few minutes during rush hours), 24 hours a day. Membership is the best way to enjoy everything the Transit Museum has to offer! Some of the benefits Museum members receive include free unlimited admission, members-only exhibit previews and events, priority booking privileges for Museum tours and excursions, and a 10% discount at the Transit Museum Store. The R38 was a New York City Subway car model built by the St. Louis Car Company from 1966 to 1967 for the IND/BMT B Division. Die Geschichte der New York City Subway beginnt weit vor der offiziellen Eröffnung der ersten U-Bahn-Strecke am 27. Oktober 1904. Erste Pläne für den Betrieb einer Untergrundbahn zwischen dem New Yorker Rathaus und dem Grand Central Depot gab es bereits im Jahr 1872. In diesem Jahr gründete Cornelius Vanderbilt die New York Rapid Transit Company, ließ Vermessungen durchführen und eine ...
