

Download Padi Underwater Photography Manual

Underwater photography is one of the most popular diving specialties, and with so many underwater cameras to choose from, it has become easier and more fun than ever to capture images of your underwater scuba adventures. The PADI Digital Underwater Photographer course gets you going quickly, whether you use a point-and-shoot camera or a sophisticated dSLR like the pros. Underwater photography is the process of taking photographs while under water. It is usually done while scuba diving, but can be done while diving on surface supply, snorkeling, swimming, from a submersible or remotely operated underwater vehicle, or from automated cameras lowered from the surface.. Underwater photography can also be categorised as an art form and a method for recording data. Rates. All dive and course rates subject to 10% Value Added Tax (VAT) All dive rates and courses also subject to 10% Service Charge. Mask, Snorkel, fins, weights, weight belt and tank included.
