Groundbreaking, riveting, and expertly told, THE BREAKTHROUGH is the story of the game-changing scientific discoveries that unleash our natural ability to recognize and defeat cancer, as told through the experiences of the patients, physicians, and cancer immunotherapy researchers who are on the front lines. This is the incredible true story of the race to find a cure, a dispatch from the life-changing world of modern oncological science, and a brave new chapter in medical history. The Breakthrough is a book about the development of immunotherapy techniques in an effort to cure cancer. The title, of course, is hype: if you read the book carefully, you'll notice that the author is careful not to promise that a cure has been found: in fact, successful therapy seems to be more the exception than the norm., The Breakthrough Immunotherapy And The Race To Cure Cancer.
